

214 Beacon St—

Boston

11 October 1890—

My dear Sir—

I am sorry you have thought me capable of such treachery. Of course I shall have the paper bought of Mr. Seymour, and am very much obliged to you indeed for letting me know about him. Mr. Brigham's varying instructions seem to be responsible for the state of affairs. His directions to me are only to get the samples & names and have Brewer & Co. buy and ship. Also he says in my list 300 drives instead of 200—your list may be right but of course I must stick to the one I received in order to avoid responsibility. As Brewer & Co. will have the payments to make they will want to purchase direct and not take a done-up pack.

aggr. from a third party-

I hope I justified myself with you.

Very truly yours -

Wm. B. Clark.
